### DETAILED ACTION

Applicant's arguments, see Remarks, filed 5/15/2008, with respect to Office Action mailed 2/19/2008 have been fully considered. Some of the rejections have been withdrawn and others have been maintained. Thus, the office action is a Final Office Action. In summary, claims 9, 13, 14, 23 and 30 are pending from the original submission.

#### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 30 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The therapeutic agents in claim 30 are relative terms, which renders the claim indefinite. The terms, "5-lipoxygenase inhibitors," "antagonists of platelet activating factor," "leukotriene antagonists" and "interleukin converting enzyme inhibitors," **among many others** are not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprized of the scope of the invention. The nature of the instant invention where the method of use claims consist of the compounds according to claim 9 and an additional active ingredient, i.e. agents for promoting growth hormone secretion, which is a therapeutic agent.

Applicant states, "Claim 22 is canceled and claim 30 is amended to remove the terms which are indicated as giving rise to the rejection."

This is not found persuasive. The rejection of claim 30 was on the grounds that it is indefinite, in that it is not known which "agents" are capable of being responsive to the inhibition, **for example** of 5-lipoxygenase. The scope of "compounds" associated with inhibitory activity could alter over time. Applicant is not entitled to preempt the efforts of others. Claim 30 does not set forth the metes and bounds of said claim. The rejection corresponds to those "umbrella terms" which are not further defined by specifically naming the second active ingredient. The original rejection stated "among others." Thus, the rejection is maintained.

***Allowable Subject Matter***

Claims 9, 13, 14 and 23 contain allowable subject matter.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1624

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
